★ The KGB, which for years has been peddling phony documents about U.S. "militarism" to the foreign press, is stepping up its disinformation campaign. The London *Sunday Times* reports that the Soviets are now disseminating artfully crafted tapes in which President Reagan talks about making U.S. allies nuclear targets. The words on the tapes are Reagan's own, taken from public speeches and news conferences and then doctored, rearranged and cut to serve KGB interests.
